July 2023

KEY ACTIVITIES / DATES FOR 2023/2024

As another year of fundraising support comes to a close, we have been reflecting on all the different activities we have achieved and the feedback received to support us going forward with events in the new school year. The common goal is clear and that is to supplement, support and enrich our children's experiences and learning journey. It has been amazing to see the projects that we have supported this year - such as the sensory room, the implementation of the read write Inc. phonics scheme and EYFS with a new IPAD. A really proud achievement has been supporting the setup of Eco and gardening club in becoming sustainable, something they have achieved together across the Christmas and Summer Fairs, by selling their plants and wood decorations. Well done all involved.

I have attached an infographic to show our fundraising efforts this year and will follow up at the start of term 1 with information and images of all our fantastic projects.

Please do keep your comments coming in we value your feedback!
