Garden Update

You will remember that FOSH received a grant of £10,000 from nationwide to build a calming, immersive garden at school. We've been incredibly lucky to secure the talents of Timothy Vivian-Shaw to create our design. He's also produced technical plans and will oversee the planting to bring the garden to life in the Prayer Space between the preschool and KS1 playground this April.

Now we need **YOUR HELP** with three specific tasks to prepare the garden:

1. We need a **landscaper** to spray out the new paths and lay edging in in early-MARCH.
2. We need a **ground worker** to install the outdoor instruments; 5 posts with installation guides in mid-MARCH.
3. We need a **workforce** to move 4.5 tonnes of gravel into the paths on a weekend in late-MARCH.

We cannot build the garden without these heroes. Please, if you can help us with these tasks, know someone who could, or want to discuss in more detail contact foshalveston@gmail.com

Thank you!
