

We are very proud that all our children including those children with additional needs strive to be 'Flying High' at St.Helen's every day! In order for us to develop and improve the provision of SEND at St.Helen's every year Mr.Chappell ,our Head of school, carries out confidential questionnaires with the parents of our SEND pupils to find out all about their thoughts and feelings about school. Please find below a selection of quotes from the returned forms over the past two academic years.

I feel that St Helen's is providing excellent schooling for my child with SEN - it is fantastic how he is included in the lessons and wider school but how he is enabled to access the curriculum at his level. I am aware this takes a lot of extra work for a teacher.

He loves school, has friends and is developing well.

If I could work out where to nominate the school for an award for SEN - I would.!

We feel SENCO support is excellent, as is the overall teaching provision/support in place for our child. Our sense is that the whole ethos and leadership of the school is inclusive and caring. Thankyou 😊

I can't fault the support my child has had. He finds school very difficult but the support he has means he enjoys going and has made significant progress.
